

1. Write a javascript Program for two variables addition, subtraction, multiplication, and division. (compulsory user input)
2. Write a javascript Program to perform a swapping of two variables. (compulsory user input)
3. Write a javascript program to convert temperature from degree Celsius to Fahrenheit.(compulsory user input)
 - a. Formula :- $C * (9/5) + 35$
4. Write a javascript Program to find gross salary. (compulsory user input)
 - a. Base Salary: 100 RS, HRA=10%, DA=5%, TA=8%.
 - b. Ans = 123 RS.(compulsory user input)
 - i. HRA \Rightarrow (House Rent Allowance) = $hra = 10*100 / sal$;
 - ii. DA \Rightarrow (Dearness Allowance) = $da = 5*100 / sal$;
 - iii. TA \Rightarrow (Travelling Allowance) = $ta = 8*100 / sal$;
 1. Formula \Rightarrow gross = $sal + da + hra + ta$;
5. Write a javascript Program to find circle area.(compulsory user input)(formula $3.14 * r * r$)
6. Write a javascript Program to find triangle area.(compulsory user input)(formula $0.5 * b * h$)
7. Write a javascript Program to find rate of interest.(compulsory user input)($p * r * n / 100$)
